access**

## Key Features

### Electronic Coin Discriminator

Coins are inserted without force. The exceptionally reliable mechanism does not need an escrow or refund.

The coin mechanism accepts the current UK coins and has the capability of learning future coin changes.

### Memory Dialling

The payphone owner can program up to ten UK national telephone numbers to which the unit will allow access without coins.

Memory 0 is pre-programmed with the CreditCall free access number.

### LED User Prompt

The unit provides both visual LED prompts and audible tones to assist usage and warn of the need to insert further coins.

### Locking Cash Compartment

Solitaire 2000 will hold up to 400 coins (new UK 10p size) in a 0.7 litre lockable cash compartment.
